

# HMIS Agency Administrator

From the HMIS Policies and Procedures Manual:

The Agency Administrator is the primary HMIS contact at the agency. This person will be responsible for:

- < Serving as a single point of communication between the end users and the CSB Database Administrator around HMIS issues.
- < Ensuring the stability of the agency connection to the Internet and HMIS, either directly or through communication with other technical professionals.
- < Training agency end users and making sure that all users have proper HMIS licensing and certification.
- < Ensuring the quality of the data entered through routine quality assurance processes and ongoing collaboration with the CSB Database Administrator.
- < Providing support for the generation of agency reports.
- < Managing agency user licenses.
- < Monitoring compliance with standards of client confidentiality and ethical data collection, entry, and retrieval.
- < Attending and participating in quarterly Administrator meetings.
- < Making sure program staff and End Users are informed of all relevant HMIS changes.
- < Serving as the data expert for all of your agency’s HMIS projects.

Each Connecting Agency will designate two HMIS Agency Administrators.
